

PROVIDERS:

Welcome to health insurance that's finally fair™

Finally...health insurance you and your patients have been waiting for

Cash payment at time of care. No negotiated contracts. Better patient outcomes.
The perfect way to grow your patient panel.

Welcome to insurance that's finally fair

Sidecar Health is on a mission to make quality healthcare affordable and accessible to everyone in the U.S.

We accomplish this mission by providing a modern, common-sense approach to health insurance:

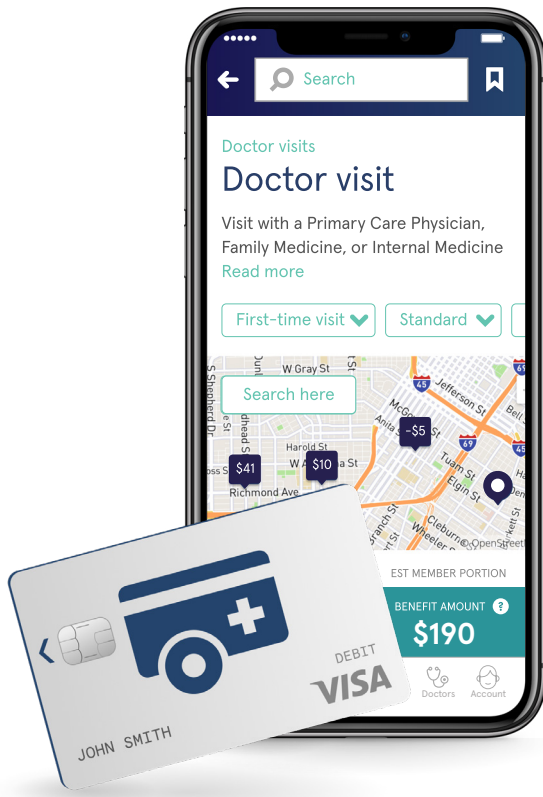

- Give patients the money they need to buy care when they need it
- Empower consumers with the right information to make smart care decisions

Our model puts patients in the driver's seat of their health care.

How it works for providers

Sidecar Health offers a modern, common sense approach to health insurance that removes obstacles to giving and getting excellent care.

STEP 1

Set your own prices

Share your cash price for Sidecar Health patients. Our members get transparent fixed benefits and can compare providers' prices in the Sidecar Health app. If a provider's price is more than the Benefit Amount, the patient is responsible for the difference. If it's less, members keep the savings. There are no networks, so members are free to choose your practice without approvals, networks, referrals or hassles

STEP 2

Payment at the time of service

Our members pay providers at the time of service with our Sidecar Health VISA benefit card. With instant pay technology, providers' administrative costs are significantly reduced.

STEP 3

Provide patients with a superbill

Patients will load their superbill into their Sidecar Health app for processing. Goodbye surprise bills!

STEP 4

That's it. It's that simple.

Why providers love Sidecar Health:

Putting Doctors in Charge = Better Patient Outcomes: Doctors should determine patient care, not financial institutions. Sidecar Health removes traditional insurance obstacles like prior-authorizations or formularies—enabling you to focus on care excellence. Our plans include any medically necessary covered service or FDA-approved prescription drug, from routine checkups to heart transplants.

Less red tape, more relief: Get paid right away! When you don't have to haggle over bills or chase payments, you have lower administrative costs. No more prior-authorizations, denied claims, and drawn-out payment terms. We help our members pay cash so you can pass on the savings to your patients. That's how we make healthcare more accessible together.

Build Your Patient Panel: Sharing your cash prices with Sidecar Health allows patients to discover your practice.

Best yet, there's more time to spend on better patient outcomes.
